

Overview

Used as a connector to connect three optional connectors for brackets of other brands, such as Pelco, Dynacolor and Panasonic.

Speed Dome Bracket Connector	Optional Connectors for Brackets		
			

Dimension (mm)

Dimension tolerance: $\pm 5\text{mm}$

Installation

Step 1: Put the cables through the connector

Step 2: Find the screws in the package, align the two screw holes of the connector with the screw holes of the camera, and tighten the screws.

Step 3: Get the proper connector (optional) to attach the camera to the bracket you want.
