

The Jonard Tools Cordless Air Duster delivers up to 51,000 RPM and three airflow settings in a lightweight, rechargeable package. Built for tight spaces and tough jobs, it integrates LED illumination, high-capacity battery life, and a comprehensive accessory kit. This air duster also features the following:

- High-Speed 3-Mode Motor swiftly sweeps away microscopic dust, with settings at ~33K, ~38K, and ~51K RPM for versatile cleaning precision
- Built-in LED Lighting automatically activates when powered on, illuminating dark corners, cable runs, and cramped spaces with pinpoint accuracy
- 6,000 mAh rechargeable battery + USB-C fast charging offers 20–30 minutes of runtime per charge (3–4 hours to fully charge)
- Includes 5 nozzles to tailor airflow for electronics, vehicles, keyboards, vents, or tight spaces
- Delivers dry, propellant-free airflow without residue, freezing, or risk of damage
- Lightweight, palm-friendly, and rugged housing made from a durable ABS material for easy handheld operation
